ILLNESS ENDS WILSON'S TALKS

President, Slightly Indisposed, Per-
suaded by Physician to Cancel
Present. Appointments With Sena-
tors.

By Telegram to The Freeman.
Washington, July 21.—President Wilson, immediately upon his return today from a week-end cruise on the Mayflower, was ordered to bed by his personal physician, Rear Admiral Carey T. Grayson, who said that the president was suffering from an attack of dysentery.

Admiral Grayson stated that the president's condition is not at all serious, but that he will take no chances and will keep him in bed until he has fully recovered. He hoped, he said, to have the president up and about in a day or two, although he could not say positively when it would be. The president is understood to have been anxious to keep the appointments he had made for the day, but that Admiral Grayson had persuaded him to postpone them.

When President Wilson left Saturday night for his cruise on the Mayflower, he was indisposed following a slight attack of indigestion, and the cruise failed to benefit him.

The president's engagements today called for meetings with Senators Edge of New Jersey, Norris of Nebraska, Calder of New York, and Cummins of Iowa, and American Ambassador to Italy Page, who was expected to tender his resignation.

BOSTON CARMEN'S STRIKE ENDED

By Telegram to The Freeman.

Boston, July 21.—Wheels of surface, elevated and subway cars of the Boston Elevated Railway Company, turned today after a four days' suspension caused by a strike of the 7,800 employees.

The strikers returned to work as the highest paid carmen in the world, according to union leaders. But they considered that their greatest triumph was the recognition of the 8 hour day, under specified working conditions, the first street car railway workers in the United States to achieve the 8 hour working day conditions.

The street car men were receiving a minimum of 43 cents an hour and a maximum of 48 cents for 9 in 11 hours' work. The demanded 72 cents for 8 hours.

Under the new scale they received from 47 cents an hour to recruit brakemen on rapid transit lines to 62 cents an hour to experienced motormen on the same lines.

Surface line motormen receive 50 cents per hour for beginners and 60 cents per hour for experienced men.

Trustees of the road said that the additional cost of the wage award to the company would be at least \$1,500,000. The loss to the company during the strike was estimated at \$250,000 and the loss to the men in wages about \$160,000, the trustees said.

MICH. FOREST FIRES SERIOUS

By Telegram to The Freeman.

Detroit, Mich., July 21.—Forest fires are again raging in the northern part of Michigan with greater fury than those of a few weeks ago which did millions of dollars worth of damage before they were checked by rain. Practically the entire district north from Traverse City across the straits to the Lake Superior shore were in the danger zone. The most acute situation exists around Nanticoke, which city is threatened to be surrounded on three sides by forest, fire and the city is covered with thick smoke. Fire engines are burning along Lake Michigan around Charlevoix and in the district between Petoskey and the straits. Thousands of citizens are fighting the flames and prayers for rain were offered up in many pulpits Sunday.

STOUT PITCHED

For Hudson and Catskill Had Hard Sliding, but Won.

By Telegram to The Freeman.

Hudson, July 21.—Catskill defeated the Hudson Semi-Professionals in the second game of a series Sunday afternoon by 1 to 0. The game was one of the best staged in Hudson in years.

Stout, famed no-hit, no-run pitcher of Kingston, was on the mound for Hudson and allowed Catskill only one hit. He pitched ballies ball after ball, until Williams twined a sensational ball for the winners, famous down and allowing only four scattered hits.

Catskill scored the lone run in the first inning when R. Galli singled to left, and second on F. Galli, Jr.'s sacrifice and scored on Smith's double in center field. Score: Hudson 1, Catskill 0.

FAR FROM DRY DAY IN COURT

Where Do They Get It, and How Do They Get It—Seemed Like Old Days Before "Dry" Wave In Police Court.

It was a regular Monday morning line-up of drunks in police court this morning, and reminded one of old times before the "dry" wave swept over the country. The line-up claimed that all they had been drinking was wine and beer, but judging from its effects it must have had more of a kick to it than what 2.75 per cent brew is said to contain.

Everett Sampson, a negro, who works on the Beatty farm on Hurley avenue, came to Kingston Saturday afternoon, and wandered downtown. He was found drunk at Hasbrouck avenue and Murray street, and placed under arrest by Officers Camp and Wood. This morning Everett had recovered from his "2.75" jag, and was repentant. He paid a fine of \$5, as he had been arrested several times before for the same offense.

Willard D. Pink, 48 years old, married and the father of seven children, whose home is near Rhinebeck, came to Kingston Saturday afternoon to purchase some articles. He also purchased wine, which he consumed, and which led to his being picked up drunk by Officer Healer on Ferry street. Willard did not know what kind of wine he drank, aside from the fact that it was red. It was his first offense in Kingston, and was given an opportunity to return home.

Frank Bloom, 36 years old, and not married, residing in the town of Marlborough, was found intoxicated on Main and Lafayette avenue, by Officers Burger and Wood. He also had only drunk 2.75 beer, but it was the first time he had ever sampled it. He was given a chance to return to Marlborough.

SPEEDERS CAN'T SPEED BY SOPER

Traffic Cop Kept Busy on Saturday and Sunday—Motorcycle Cops Walker and Soper Have Paid for Three or Four Motorcycles.

Motorcycle Cop Soper spent a busy Saturday and Sunday putting a stop to speeding on Broadway, and hauled up a number of offenders. It might not be amiss to say that since the motorcycle was purchased by the police department Officers Walker and Soper, the speed kings, have made so many arrests and secured so many convictions that the purchase price of the cycle has been obtained many times over.

Saturday and Sunday's crop follows:

John Reuter, Elizabeth, N. J., by Officer Soper, gave cash bail.

John C. Yates of Pine Hill, by Officer Soper, gave cash bail.

Louis Steinhardt, running without tail light lit, arrested by Officers Fout and Gess, fined \$5.

Albert Hallman of Brooklyn, by Officer Soper, gave cash bail.

Solomon Goldberg of New York city, gave cash bail.

Henry Fischback of New York, by Officer Soper, gave cash bail.

Max Sadousky of New York, arrested by Officer Soper, gave cash bail.

All were speeding between 20 and 30 miles an hour, and gave the bail for their appearance in police court later.

BULGAR TERMS READY THIS WEEK

By Telegram to The Freeman.

Paris, July 21.—With the Austrian treaty virtually disposed of, the final terms having been handed to Dr. Renner, of the Austrian peace delegation, without ceremony yesterday, belief prevailed in peace conference circles today that the Bulgarian treaty would be completed this week and presented to Premier Theodoroff, within ten days.

Austria is expected to signify within the ten days stipulated by Premier Clemenceau, her readiness to sign up. Dr. Renner sent numerous notes to the conference and Premier Clemenceau, after handing in several replies, finally told him that the treaty itself would constitute the answer to the balance.

The main points of the Austrian treaty are:

1.—Austria will be granted a slice of Hungarian territory between the Danube and Jugo Slavia, in the region of Odenburg and Stein.

2.—Czechoslovakia will be granted a bridgehead on the south bank of the Danube facing Pressburg, thus gaining access to two railroads running southward.

3.—Austria will be granted a strip of Czechoslovakia near Gmund and along the Morava valley.

4.—The Austrian army will be limited to 30,000 men, supplied by one munitions plant.

5.—Czechoslovakia, Poland, Rumania, and Jugo-Slavia, are to bear \$500,000,000 of the former dual monarchy's war debt. (The Czechs are to pay half and the balance is to be levied among the other three powers.)

These states also must meet a portion of Austria's pre-war public debt, as well as certain other financial liabilities.

The allies themselves will have to take up the task of restoring Austria financially and economically.

No definite agreement has yet been reached regarding the proposal to expel all of the Turks from Europe. In view of the determined stand made by Mussulmans living in territory other British war, it is possible that Constantinople may remain the seat of the Mohammedan faith in the same sense that the Vatican at Rome is the headquarters of the Roman Catholic faith. However, Turkey would lose all political power in southeastern Europe.

Semi-official advice from Rome states that Foreign Minister Tittoni is making good progress towards a settlement of the Adriatic problem.

The inter-allied commission of four generals who were sent to Fiume to investigate the clash between the French and Italians, are completing their work and are expected to make a report to the conference this week that will form the basis of a settlement.

RACE FRICTION IN WASHINGTON

By Telegram to The Freeman.

Washington, July 21.—Washington today faced the possibility of witnessing real race riots. Following small disturbances on the past two nights, the word went out today for a mobilization tonight of servicemen, who it was stated, would attempt to "clean up." It also developed that tonight would find both military and metropolitan police facing serious disturbances.

Disturbances along Pennsylvania avenue, scenes of many historic parades and pageants, continued until early today, and it was said that some fifteen negroes were injured in the score of more clashes. No weapons were used by the participants. But flying fists, with negroes on one side, and soldiers, sailors, marines and white civilians on the other, did considerable damage.

The spark of race riot had been smoldering for more than a week as a result of several attacks upon white women by negroes.

HART STORE CHANGES HANDS

Herbert Carl and Clyde Wonderly to
Continue Business Without Change
in Management—Griffin A. Hart a
Veteran Business Man.

On September 1, Griffin A. Hart, for 45 years actively engaged in the dry goods business on Wall street, this city, will retire from business, having disposed of the stock and good will of the store at 315 Wall street to Herbert Carl and Clyde Wonderly, the latter for the past four years having been the manager of the store. While the name of the store has been G. A. Hart & Co., Mr. Hart was the sole owner. Mr. Wonderly will continue to manage the business, which will be continued along the same high-class lines as heretofore. Mr. Hart is 77 years of age, a Grand Army man, and as lively as many men 15 years his junior. He left today for Saianac Lake to spend a week with his daughter, Mrs. Christopher Snyder, at her summer home there. Mr. Carl, one of the new owners, has been connected with business very successfully in Kingston for many years, conducting dry goods stores on North Front street. He built the big Carl store at the head of Wall and Fair streets several years ago, which he sold to Rose, Gorman & Rose, and which is now called the R-G-R store, and has been retired from the dry goods business for a few years but continued conducting the millinery business. Mr. Carl will not take an active interest in the running of the store.

The Hart store has been in the same location since 1874, when the William Townsend dry goods store was taken over by William Benson, Griffin A. Hart and Robert Hubbard. Previous to that Anthony Benson, William Benson and Mr. Hart conducted a grocery store on Wall street when the Lovin ladies' gown store is. In 1882, Mr. Hart, clerked for Jennings & Broadhead, on Wall street, next to the Episcopal church, and from there went to the Civil war, where he served three years. On his return he went clerking at the drygoods store of Merritt & Broadhead on Wall street, and in 1888 went into the firm of Benson Brothers and Hart, in the grocery and crockery business. In 1884 Mr. Hubbard retired from the firm of Benson, Hart & Hubbard, going with the firm of Hubbard & Foszy, a new dry goods firm that opened in the Ridenour building, now occupied by the Van Wagenen store and the firm became Benson & Hart, and in 1898 G. A. Hart & Co. In 1909, W. N. Martin, who had been manager for the J. O. Merritt dry goods store, became a member of the firm of G. A. Hart & Co. as did A. K. Hart, son of G. A. Hart. Mr. Martin went out of the firm about five years ago.

Mr. Carl was seen this morning and said as stated in the morning paper, he had taken a financial interest in the business with Mr. Wonderly and that the active management would remain the same. He had worked for Mr. Hart when the firm was Benson, Hart and Hubbard, over 46 years ago. Had been a competitor for 20 years or more but they had always been the best of friends. He had purchased a number of dry goods stocks in Kingston on account of failure but this the first for his success, which he hoped might continue as in the past. He had implicit confidence in the present management, in fact did not know that he would have a single suggestion to offer as to a change. He expects to spend but little time at the store as his farm garden occupies a great share of his time, and he and hard work had parted company several years ago.

CARRANZA MAY DISAVOW ATTACK

By Telegram to The Freeman.

Washington, July 21.—The United States government intends to handle the new outrages against American citizens in Mexico with a firm and vigorous hand, despite assurances from Carranza that he would make earnest attempts to prosecute the murderers of John J. Correll, victim of Mexican bandits.

This was plainly reflected today in the attitude of state department officials. Both the state and navy departments were awaiting additional details of the Temest river incident and officials made no effort to minimize the seriousness of the situation caused by the attack upon and robbery of American sailors of the U. S. S. Cheyenne, by an armed force along that stream. They refused to divulge what procedure would be followed but made it very plain that they had no intention of letting the matter drop.

It was believed in some quarters that the Carranza government would be called upon to disavow the attack and to furnish satisfactory guarantees that there would be no recurrence of such incidents. Thus, it was pointed out, the way would be opened for drastic action by this government in the event that Mexican outrages did not cease forthwith.

SUNDAY DANCE AT ORIENTAL

Leads to Arrest of Casper Ketterer.

Kingston Point Hotel Proprietor—Police Get List of Dancers—Hearing Wednesday.

Casper Ketterer, who has leased the Oriental Hotel at Kingston Point for the season, was placed under arrest Sunday evening by Sergeant Hanley, who visited the hotel that evening in company with Officer Simpson and found a dance in progress in the parlors. The two officers also secured a list of names of those dancing, which is said to be over a foot in length.

This morning in police court Mr. Ketterer was arraigned before Judge Schlicht charged with violation of the city ordinance in permitting a dance on Sunday at his hotel. Ketterer was represented by John N. Cashin, who asked that the hearing be adjourned until Wednesday morning, which request was granted, and Ketterer was paroled in custody of his attorney.

According to the police Mr. Ketterer ran a dance at the Oriental Hotel on Sunday, July 13, and was warned not to repeat the performance. That was why the police visited the hotel Sunday evening.

The hearing is expected to prove a spirited one and the outcome will be looked forward to with interest by other dance hall proprietors in Kingston.

SENATE BEGINS H. C. OF L. QUIZ

By Telegram to The Freeman.

Washington, July 21.—Progressive Republicans are demanding a party offensive on the high cost of living. Senator Capper of Kansas indicated today.

The problem of the high cost of living, Senator Capper said, is more important to the people than the league of nations and the party in power must take some definite action before the next election.

Opening the offensive on living costs, the District of Columbia committee of the senate today began an inquiry into conditions in the city of Washington. It was expected that this probe would expand and before completed would include a wide survey of food prices throughout the entire United States.

"It will not be a local investigation," said Senator Capper, who is devoting almost his entire time to the inquiry. "We are going to try and find out about the spread between the producer and the consumer, and what we learn will be of interest and benefit to the entire nation."

Senator Capper was particularly interested in the report of the bureau of markets, which shows that while the wholesale prices of food have decreased, retail prices in general have increased.

Representatives of the packing interests in Washington were to be called before the committee to testify concerning the fixing of prices.

Dr. W. E. Mosler, an expert of New York, has been invited by the committee, to assist in the investigation and he has outlined a plan of procedure which was to be presented to the committee today.

Universal Co. Now Reorganized

Details of Uster Controlled Road Machinery Company, Its New Officers and Directors and Variety of Products It Is Capable of Turning Out.

The re-organization of the Universal Road Machinery Company in which the entire stock is controlled by Uster county people, was consummated Saturday afternoon at a meeting of the board of directors of the company in the rooms of the Kingston Trust Company when the following officers were elected: R. E. Leighton, president; W. J. Turck, vice-president; C. R. O'Connor, secretary and treasurer; A. B. Shufeldt, assistant secretary and treasurer. Mr. Leighton was appointed general manager and Mr. Shufeldt, sales manager.

The Freeman has known for some time that changes were under way in the Universal Company's organization, but for reasons that will be obvious to any business man it has refrained from publishing facts or surmises until such time as all parties interested were agreeable to giving the facts to the public. As the election of officers completes the work of reorganization, a representative of the Freeman called on Mr. Leighton, the new president of the company, this morning and elicited the following statement:

Realizes Leighton's Ambition.

"I am glad to announce the completion of our new organization. It makes the realization of an ambition I have cherished for some years."

That of making the Universal Road Machinery Company a truly Kingston enterprise with an active board of directors made up of progressive Kingston men.

"The names of the new directors are a guarantee that the business of the company will be carried on aggressively and I look forward to the necessity of enlarging our facilities at no very distant date. We are very busy now and the demand for road machinery is on the increase. We have about fifty people on our payroll which averages \$1,000 per week.

"We have not seriously discussed any increased plant facilities as yet. The company owns plenty of land for considerable expansion when we get to that point. While we will continue to manufacture and push our standard line of road building equipment, we propose to take up certain other lines. One of these is the building of large fans for forced draft, ventilating and similar purposes. The company has furnished ten large fans for ships for the Emergency Fleet Corporation and has an order now for eighteen more of a smaller size.

Deal Long Pending.

"The negotiations which have just ended in the transfer of the ownership of stock from out of town parties to Kingston men were begun more than a year ago but certain business conditions, related to the company's progress and it was only a few weeks ago that I succeeded in obtaining an option that I felt justified in approaching local interests."

W. J. Turck and C. R. O'Connor took a leading part in getting together a group of men who made a deal with the present directors are W. J. Turck, Jacob Rice, Frank R. Fowler, James Jenkins, C. R. O'Connor, W. F. Rafferty and R. E. Leighton.

History of Plant.

The Universal Company is no stranger to Kingston. Sixteen years ago the business was founded by Julian Scholl & Company. When that concern failed as a result of the panic of 1907, one of the largest creditors was George Burnham of Philadelphia, who had owned a controlling share in the Baldwin Locomotive works. Mr. Burnham reorganized the local concern, as he believed that the road building machinery business had a future and it was the best way to recover his losses. He was a little unfortunate in the selection of a president and general manager, who maintained an expensive office in New York city, and did not succeed in putting the business on a profitable basis.

About six years ago S. H. Chauvenet was made president of the company and came to Kingston to live. Mr. Chauvenet was not familiar with the manufacturing operations and did not pursue an aggressive business policy. The plant alone doing a moderate amount of business. There were no important developments during his administration. In the meantime Mr. Burnham died and about a year and a half ago the executors of his estate began withdrawing investments from all lines of business, which included active participation, and re-invested in standard inactive securities. As soon as Mr. Leighton learned of this he entered into negotiations with the executors of Mr. Burnham's estate with a view to making arrangements to purchase the Burnham interests in the Universal Company. The war brought about conditions that delayed the negotiations and it was not until a few weeks ago that an option was secured which justified Mr. Leighton's turning to interested local investors. Mr. Leighton then associated Mr. Turck and Mr. O'Connor with him in an effort to interest local investors, and late in June completed the deal of transferring the ownership of the Burnham stock. A new board of directors was elected at a meeting held on July 2.

There are about 25 stockholders in the new organization, all being residents of local communities. All but five are Kingstonsians. The fact that the concern is now controlled by

STREET FLUSHER ARRIVED TODAY

The auto street flusher, recently purchased by the board of public works, arrived in Kingston this morning over the West Shore railroad from Ellettsville, Indiana. The flusher has a Studebaker equipment mounted on a Pierce-Arrow five ton truck chassis. The tank has a capacity of 1,200 gallons. The tank and engine are painted a dark red with black stripes, while the truck is painted yellow with black stripes. It costs the board about \$6,500. The two new Brockway trucks recently purchased by the board, were placed in active service with the street department this morning.

Barnham Hearing Again Adjourned.

In the matter of the contest over the preliminary accounting of Susan and Peter J. Barnham, trustees of the Peter Barnham estate, an adjournment was taken until August 14th, the compiling of the accounts by the experts not having been completed. Roscoe Irwin appeared for Susan Barnham and Palmer Canfield, Jr. of Brincker, Canfield and Bynner, for Peter J. Barnham.

Local Capital Means Much for Kingston.

Mr. Leighton feels particularly gratified at the attitude of the business men associated with the new company and especially those individuals connected with the Kingston Trust Company. The attitude of the Kingston Trust Company, said he, is such that it means a new era in manufacturing in Kingston, because they have the manufacturer's viewpoint. These men, he remarked, appreciate the facilities the manufacturer needs. They have not only interested themselves in obtaining subscriptions for stock in the new company but have made possible through certain banking arrangements for the company to look forward to handling large business. Mr. Leighton pointed out.

The capitalization of the company was formerly \$75,000, and it has now been increased to \$200,000 of which \$140,000 has been issued, leaving \$60,000 of stock in the treasury for future expansion.

The new company starts off with a fine modern plant fully equipped for the present business requirements, without any debts except current trade accounts, and with orders enough on hand to keep the factory running a couple of months. The complete operating organization is in good shape to push the business for all it is worth.

The plant occupies a little less than two acres of land. There are four substantial modern factory buildings, one being a brick structure 55x250 feet containing the machine shops, blacksmith shops, crusher erecting shop, and store-room. Another brick building 35x50 is equipped for sheet metal and plate work. A frame wood working shop 28x80 with a storage extension 35x45 is equipped with modern wood working machinery. There is also a frame erecting shop 35x60 equipped with appliances for erecting portable blms and other large appliances for erecting material in various grades. Portable stone bins with a capacity of 12 to 50 tons are also made. The company also manufactures a special car unloading device which consists of a portable bin with elevator attached which is set alongside of a railroad track for loading contents of a railroad car into wagons or auto trucks. This device will unload a railroad car at the rate of about one ton a minute.

During the period of the war the Universal company manufactured a lot of knitting machines for a Philadelphia concern. The machines were intricate pieces of mechanism capable of producing a wide range of knitting goods from delicate laces and valances to army blankets and overcoat material. Nearly two hundred drawing machines were built for the Hamilton Beach Company. The company manufactured 12 fuse crimping machines for the land grenade works at Fort Eben. A considerable amount of special work was done for the Kingston Shipbuilding Company and for the Newburgh Shipbuilding Company, and goods were made for the life boats built by the Athens Boatbuilding Company.

The Universal company maintains branches in Boston and New York. It has agencies in Philadelphia, Baltimore, Norfolk, Chicago, Kansas City, Portland, Ore., and Montreal, Canada. With the extensive road program planned by the various states in the union and the impetus given to road building by the United States government, the Universal Road Machinery looks forward to big business.

Henry A. Cohen has been appointed chairman of the publicity committee. Under the direction of Mr. Cohen a weekly publication known as "The Convention News" is being distributed throughout the state associations. This paper contains all the latest information concerning the convention activities and the state officers' bulletins to the constituent organizations. Several copies of it have already been sent out, and the work has been highly commended. A movement is on foot to establish "The Convention News" as a permanent periodical edited in the interest of the state federation.

Mr. Lewis, chairman of the general convention committee, is first vice president of the state federation, and also a candidate for election to the state presidency to succeed Samuel Reichler of Utica, the present incumbent. Among the cities to be represented are Buffalo, Rochester, Syracuse, Elmira, Utica, Schenectady, Albany, Troy, Kingston, Newburgh, Gloversville, Amsterdam and other places throughout the state.

According to correspondence received from members of the federation it is probable that an effort will be made to raise funds to establish a permanent central office of the federation, and from present indications it appears as if Albany will be selected as state headquarters for the federation. Albany is undoubtedly the hub of the federation and for that reason many of those interested in the project believe the proposition will receive the support of the delegates.

As soon as the program is complete copies will be sent to the organizations.

ORGANIZE STATE FRUIT GROWERS

Twenty new co-operative fruit growers' associations are in process of organization in Niagara, Orleans, Monroe and Wayne counties. This remarkable spread in the co-operative movement is due to the great saving in the cost of packing, increased prices derived from the standardization of fruit and central selling, and the relief afforded farmers in the matter of packing and storing. As the knowledge of the benefits of co-operation spread the demand for co-operative societies becomes greater. Niagara County Co-operative society has today, for example, a model packing plant with up-to-date graders and labor saving devices. A county brand has been established and all the member societies through the county are allowed to pack to its standard and to use the lithograph trade mark brand of the central society.

That such encouraging results are evident throughout the state is largely due to the untiring efforts of Dr. Porter, commissioner of foods and markets, who through the director of the bureau of co-operative associations, C. R. White and the county farm bureau agents, is doing everything in his power to hasten the day when the farmers, fruit growers and raisers of produce shall be thoroughly organized throughout the state. And when that day comes the consumer will have sound economic reasons for being thankful.

Consumers will, of course, understand that co-operative selling associations are not organized for the exclusive purpose of reducing prices on commodities which they handle, but rather to get better prices for the producer. However, the final outcome is that the consumer in purchasing produce placed on the market by a co-operative selling association receives more for a dollar than under the old haphazard way of marketing by individual producers, because the commodity, be it what it may—apples, peas, onions, etc., is under the modern method of packing, of a superior quality. Who, for example, does not recall the purchase of a quart of berries, or a basket of grapes which on being emptied did not disclose on the bottom at least a third that were unfit for use. Today every package of fruit or produce bearing the name of a co-operative association carries with it an implied guarantee of excellence.

One might go even a step further and prophesy that when agriculture is thoroughly organized on a co-operative basis, prices of farm produce will be lower. It stands to reason that when capital realizes a fair return may be made on money invested in farm land, due to better prices for produce, it will be attracted to the business and with the increase in productive farms will come a greater output, and a corresponding reduction in prices, or the same result may be brought about by economies in production and marketing.

MC VEY'S LEADS FOR SILVER CUP

Rear Admiral Higginson Offers Trophy to Playground Winning Majority of Ball Games—McVey's Win Again Saturday.

Rear Admiral Higginson, to promote interest in the series of ball games between McVey's Field and Forsyth Park, has offered a silver loving cup to the team winning the majority of games. The cup will be placed on display in the show window of Warren's sporting goods store on Fair street, as soon as it is received.

So far two games in the series have been played and McVey's Field has won both. The second game was played Saturday afternoon at Forsyth Park and resulted in McVey's Field scoring 4 runs to Forsyth Park's 2. The game was much faster and more closely contested than the first game, also won by McVey's Field, who swamped the uptown playground ball tossers. The box score of Saturday's game:

St. John's News.
Friday being St. James Day, there will be a celebration of the Holy Communion at St. John's Episcopal Church on Wall street at 10 o'clock. The services at St. John's Episcopal Church next Sunday, will be the last before the closing of the church for the month of August.

Curious Plant.
Among the curiosities of the desert of Sahara is a queer-looking scrubby plant, always yellow with fine sand, called the "coughing bean." In the dry heat its pores become choked and it would die were it not for a general gas which accumulates in its cells and explodes with a sound like a human cough.

GIRL AND TIGER ARE PALS

How would you like to have a real Royal Bengal tiger for a pet? A real honest-to-goodness tiger that plays like a house kitten and purrs and rolls around and loves catnip?

Well, pretty Pauline Hackborn has one and she calls him Rajah. Pauline and Rajah are with John

Robinson's big circus, which comes to Kingston Tuesday, July 23rd. "Rajah is a dear," rushes Pauline. "I love him. He is never cross or vicious and plays with a gentleness that really surprises me sometimes. I have had the tiger since he was a wee, fluffy cub. He is now four years old and is full grown."

METACAHONTS.

Metacahonts, July 21.—Private Preston Enderly arrived home on Wednesday after 14 months in the service of our country and nearly a year "spent" overseas. His many friends in town were very glad to welcome him home again and to see him looking so well. Enderly has many interesting experiences to relate of his time spent in the service and especially of the months he spent in Germany with the 51st Pioneer Infantry in the army of Occupation. He is at the home of his sister, Mrs. Floyd Chisley at present.

Mrs. Lloyd Snow and Mrs. Ralph Emory of Kingston were the recent guests of their parents, Mr. and Mrs. Andrew Krom.

Mrs. Minnie Chipman and daughter and grandson returned to their home in Waterbury on Saturday after a pleasant two weeks' vacation spent in the old home town, where Mrs. Chipman's childhood days were passed. All were glad to see her again.

Mr. and Mrs. Oscar Markle and Misses Annie and Mildred Hornbeck motored to Palenotown Thursday and visited relatives there.

The date for the town Sunday school picnic, which will be August 1, in the Millbrook Grove, is given rather earlier than usual. A large crowd is anticipated as in former years and we are glad to hear they are going to have such fine music.

Mr. and Mrs. John Markle of Whitefield were in town on Wednesday.

The Jewish boarding houses are filled to overflowing with city guests.

The Zuyder Zee.

The Zuyder Zee, or Southern sea, was formerly a lake surrounded by marshes. Its present extent is the result of floods in the thirteenth century. Its area is about 2,000 square miles, and the average depth from 10 to 15 feet. The Hollanders have reclaimed a million acres from sea, lake and river since the sixteenth century.

To Repair Book Covers.

Beautiful books are especially so with leather, and if they are in want of the old or worn cover, a new one is a necessity. To remedy this, a special quantity of white and red and water hyacinth together, apply with a soft brush or piece of flannel, and when thoroughly dry polish with a brush piece of flannel.

HURLEY.

Hurley, July 21.—The political pot was put on, in this village, for the fall campaign, when the Republicans held a caucus, July 17, for the purpose of electing delegates to the county convention. The pot had hardly time to simmer even, as the results were pronounced as ready, very easily. Everything was as smooth as a summer sea; only a few members of the party were present, while a few from other political faiths were in evidence to see the pot boil. Messrs. John Ostrander, Benj. Osterhoudt and Benj. Crispell were elected delegates and all was over.

The Messrs. Margaret and Edna Miller are home on a vacation from government hospital work in New Jersey.

Miss Pearl Stumble is home for a visit.

Mr. and Mrs. A. L. Hubbard and two children of Meriden, Conn., spent a couple of days at Mrs. Markle's. They are relatives of Mrs. John L. Elmendorf.

Mrs. Von Schneider, Miss Betty and Master Carl of Hackensack, N. J., are visitors at the Newkirk household across the creek. Rev. Dr. Von Schneider returned home a few days ago.

Mrs. Louisa, who has been residing in Poughkeepsie, has returned to "The Knoll," having now as her guest, Mrs. Hadden, of Poughkeepsie.

Mrs. Mabel Tauxart has gone from Northfield, Mass., to visit friends in Vermont.

The young women delegates from the "Willow Workers," Miss Edna Miller, Miss Ruth Elmendorf, Miss Mary Emma Elmendorf and Miss Julia Lockwood, have returned from a most delightful as well as enjoyable week in Northfield, Mass.

On account of the strenuous work needed on farm and in harvesting, the "Sisters" have little opportunity for meetings at the present time, however, meetings, although small affairs, do happen occasionally, especially in the early morning. The great questions of Article X and the Shantung Peninsula or the larger matter of the League of Nations as a whole, pale into insignificance beside the burning questions of war-time prices and daylight savings. As yet, we have been unable to settle these matters satisfactorily for the United States or for ourselves even. As regards war-time savings, opinions warmly expressed on the side are met with opinions as decidedly expressed on the other and there we know only "where we are at" but where we are coming out, well!

ACCORD.

Accord, July 21.—The Rev. N. L. Heroy made an auto trip to Ellenville Wednesday and on his return trip lost a lamp and a number plate of his car. He would greatly appreciate the favor if the finder would return them to him.

George Johnson and another autoist found the road near High Falls too narrow for two cars Wednesday and consequently had a smash up. The cars were damaged but the owners escaped.

Mrs. Gelsman, who has been supervising the Mill Hook cottage, has returned to Ellenville, N. Y.

Mrs. Edna Markle has returned home, after spending several weeks at Bayonne, N. J.

Harry Lawrence, Jr., spent Wednesday at Kingston.

It is reported Benj. Halpin has bought Raymond Markle's farm. Raymond and Ralph Markle are to have sections in the near future as they expect to move to Michigan. The members of the County Women's Club enjoyed a most delightful outing at the home of Mrs. Samuel Rouse near Stone Ridge, Thursday.

Mrs. Harry Enderly is spending some time at Poughkeepsie. Many of the housewives are gathering the huckleberries on the

mountains, which are quite plentiful.

It is reported that Asa Bennett will move to Middletown.

Senator Walton of Kingston will be one of the speakers at the Sunday school picnic in Mill Hook Grove on August 5th.

Chance DeWitt, who has been employed by H. L. Devoe for some time, has left for parts unknown. It is reported that a suit of clothes has also departed in the same mysterious manner.

Miss Beatrice Rose is spending some time in New York city.

Miss Taylor of Hampton Institute, Virginia, is spending some time with Mrs. H. M. Epps.

It is reported that an infant was accidentally drowned at Rock Hill, Friday.

Our Kyrreike friends tell us that it is alright for their Accord friends to visit their charming place any time, day or night, and they have no objection, but they do object to having their roads blocked up by an auto at 2 o'clock on the morning, thus compelling other cars to back down the hill and make detours. Now this is most unfortunate, as we always thought that our Accord folks were always very considerate of others. However, we trust that we were misinformed and that Will Osterhoudt was not the guilty party.

Walter Akerman has purchased another car to supply milk for his customers.

Gipsy Language.

The language of the Gipsies, known as Romany, is said to be Hindoo dialect derived from Sanskrit. Ethnologists pretty well agree that the Gipsies are descendants of an obscure Hindoo tribe. The popular belief that Gipsies are descendants of the Egyptians has no other basis than the similarity of the two words. The word "Gipsy" as a name of that race from the Bohemian, and means "traveller." The first Gipsies appeared in England early in the sixteenth century, but were found in eastern Europe at least two centuries earlier. They are now scattered all over the world.

It is stated that under certain conditions of fermentation buttermilk develops an unlawful alcoholic content. If so, buttermilk must go, as otherwise our complete honesty will be only a delusion.

The lure of aerial adventure grows stronger with the \$50,000 bounty offered for a flight to South Africa and the Indies in addition to the nine prizes aggregating \$200,000 already offered for a variety of aerial achievements.

There is no need of a new city called "Geopolis" to commemorate the war. Already there are more than enough scars on cities, lands and men to keep the memory of the war alive, to say nothing of records brimmed with horrors.

Bernstorff advises Germans to try to please Americans, their best friends among the powerful. He should have added that it is fortunate for his countrymen that this country was too far away to be the scene of monstrous German atrocities.

"We shall presently see 'Made in Germany' marked upon goods, but we are not likely to see another war made in Germany."—Philadelphia Record. If the German manufacturers have sense enough to come in out of the rain we shall not see "made in Germany" on goods sold at retail from that country for a long time to come.

Jeffre not only rode ahead of Foch in the great Battle Day procession but was yielded the precedence in another particular. "Kiss her," said Jeffre to Foch, "when a little girl who was to make a speech forgot her lines and began to cry. 'No,' said the Generalissimo to the hero of the Marne, 'the honor is yours; you kiss her.' And 'Papa Jeffre' did so.

Representative Yates of Illinois compares the marching doughboys of his state to "a swelling sea, a moving forest, a waving grain field, a whole mile long section of the corn of Illinois, the aureate corn, the tasseled, castled, royal corn of Illinois, within whose yellow heart there is of health and wealth for all nations." A just tribute to both doughboys and corn, notwithstanding the persistent war price of the latter.

American photoplay grows in popularity in England by force of merit, but the Britishers are reported to be greatly troubled by the unfamiliar slang and colloquialisms so freely used in the subtitles. Translation into British slang would be the most complete solution of the problem, but this could not be done successfully in America and to put the subtitles into ordinary English on films for export would appear to be the next best solution.

MR. FORD'S MISTAKE.

It is very risky for an imperfectly educated man of wealth to employ a bright literary hack to write a book for him in expression of his generally outlined views on an important subject. Henry Ford is now finding this out too late. Before Mr. Ford jumped in with his usual energy to help win the war, once it was started, he was a dyed-in-the-wool pacifist and he employed one Theodore Deland to write a book under his (Ford's) name against preparedness. The employee did his best to earn his money, with the result of a sensational production committing Mr. Ford to many extreme statements which he probably would never have made had he fully understood what it was saying. In consequence there was very sharp comment, that of the "Chicago Tribune" editorial being so sharp that the indignant automobile king unwisely began a million dollar suit for libel.

Though Mr. Ford has lately insisted on the stand that whatever is in the book represents his views, his replies and observations have indicated that he has either not read his own book or completely failed to understand its historical parallels and literary allusions. Such a failure to understand would appear to have been inevitable, for he has but slight acquaintance with standard literature and has even boasted that he

thought little of history and knew less. His lack of needed information outside of business lines may be indicated by a single example. Asked on the stand if he had ever heard of Benedict Arnold, Mr. Ford, blissfully unconscious of what the question involved, answered: "Yes, he was a writer." It has been suggested that he had Arnold Bennett, the novelist, in mind, but apparently he faintly recollected the name of Matthew Arnold as that of a prominent man of letters and had forgotten or never heard of Benedict Arnold, the traitor of American history. It may be taken for granted that Mr. Ford now has a greater respect for a knowledge of history than formerly. Doubtless he also has been forced to conclude that to hire a journalist to write a book on an important subject is a more hazardous undertaking than to employ a slinger of phrases to introduce a new automobile model.

LITTLE LAUGHS.

"Time for ocean voyages." "Yes, Dorothy is on the quiver." "When did that sail?"—Kansas City Journal.

"What is a living wage?" "That depends." "On what?" "Whether you live in a cottage or an automobile."—Louisville Courier-Journal.

Howard—"My wife is awfully annoying—always makes a virtue of necessity." Coward—"Mine beats her. She makes a virtue a luxury." Life.

"Why do you start to laugh now? I'm just beginning to tell the funny story." "You're getting it off backwards, dear boy."—Louisville Courier-Journal.

"An' there was me, wit' me rifle an' bay'net an' bombs—all alone 'un'—when all of a sudden I walks plumb into a whole regiment o' big Hunns." "Ooo-oh!—what happened?" "Well—I'm here, ain't I?" Judge.

Mistress—"Now, Bridget, there's no use of further argument as to how the dish should be prepared, but our ideas on the subject are as different as it is evident one or the other of us is crazy." Bridget—"True for ye, mum—an' sure it isn't myself 'd be kappin' a crazy cook."—Boston Transcript.

Bacon—"What are these 'oil zushers' we read so much about in the newspapers nowadays?" Egbert—"Didn't you ever see one?" "Why, no. Did you?" "Sure! If you'd been here ten minutes ago you would have seen one, too. He just dropped in to try and sell me some oil stock."—Yonkers Statesman.

FLOUR LICENSES.

Not Needed by Bakers at Lumber Camp Restaurants.

An official order was issued recently by Julius Barnes, United States wheat director, notifies applicants for flour handlers' licenses that, for the present, if the applicant operates a bakery in connection with a retailing business at lumber camps and the products of such bakeries are consumed in restaurants, eating places, etc., operated in connection with such a camp, it is not necessary to secure a United States wheat director's license for such a bakery. However, the order continues, if such a bakery sells any of its products to employees, or others, to be consumed elsewhere than in the restaurants, eating places, etc., operated by such bakery, they are subject to license. If the total flour consumed is 50 barrels or more per month.

Dublin Riots Continue.

By Telegram to The Freeman.
London, July 21.—Riots which began in Dublin during the peace celebration on Saturday were renewed Sunday night and continued until early today with frequent clashes between mobs and the police. It was reported from that city. The rioters attempted to release prisoners arrested on Saturday. Several times the police charged the mobs using their batons.

BIG CHICAGO STRIKE AVERTED

By Telegraph to The Freeman.
Chicago, July 21.—The threatened strike of 15,000 Chicago and Surface street railway employees will be averted, it is believed today, through the granting of "reasonable" wage increases to the men, but car-fares will go up.

Indications are that the state public utilities commission will grant the traction companies permission to increase fares sufficient to cover the expense the increased wages paid to employees would entail. The employees, it is declared, are prepared to accept a compromise scale somewhat less than the 77 per cent increase, originally demanded.

The strike of 17,000 stock yard employees, which arose out of the objections of the workers to installment of armed guards at the various packing plants, ended today when the guards were withdrawn and the men returned to work. The workers are preparing to submit demands for wage increases to the packers this week.

First steps towards adjustment of disputes in the building industry here which led to a lockout of more than 100,000 union laborers, were taken this afternoon when a committee representing the unions was to meet with a delegation of employers.

CARPENTER WILLING

But Belief is That He Would Be Out-classed by Dempsey.

By Telegraph to The Freeman.
Paris, July 21.—Georges Carpentier's manager announced today that the European heavyweight champion has agreed to meet Jack Dempsey in a bout for the world's title, if Dempsey can be persuaded to come here. The name of the promoter was not given but it was said that he offered a purse of \$100,000.

Although Carpentier won with ease in the bout with Dick Smith, former English light-heavyweight, Saturday, the few Americans present were of the opinion that Carpentier needs to learn a lot if he hopes to beat Dempsey.

The Frenchman showed plenty of speed but swung widely and lacked the polish that gave him the pre-war reputation as a boxer.

The great losses we sustain is because we must clear our store for the incoming Fall stock. You are the ones to be benefited. Our iron-clad rule will not permit us to carry over one piece of merchandise. You have realized this in the past. You will more than be surprised this year at the great reductions to uphold this same ruling.

Everyone knows how fabrics and materials are increasing in price. The prices we place on our garments during this sale cost more at wholesale than we have priced them at retail. Every garment in our entire stock has been reduced without regard to cost or former price. This is the biggest bargain event ever offered in this vicinity, and as we find our stock is tremendous, it is to the interest of every woman to come here **Wednesday** and realize that our prices are even lower this year, and the garments far superior.

This Will be the Most Talked of Sale of the Year, Because it Comes at a Time When the Cry of "Higher Prices" is Abroad in the Land. COME AND SEE FOR YOURSELF.

500 MEMBERS FOR KINGSTON POST

That is Prediction of American Legion Officials—Charter Expected Soon—Statement From Governor of Texas.

The charter for Kingston Post of the American Legion is expected within a few days. When it is officially received a meeting of the slanders will be called, permanent officers elected for one year, committees appointed, etc. The executive committee which will have as one of its functions the attendance of new members will be reasonably busy the first night for already there are several men who have filled out the application card for membership, and it is certain many more will do so within the next few days. These cards may be obtained from Eugene E. Carter, temporary Kingston post secretary, or from Harold A. Styles, temporary county secretary. It is predicted Kingston Post will soon have a membership of 500.

Governor W. P. Hobby, of the state of Texas, in writing to the officials of the American Legion Weekly, says:

I am pleased to have the opportunity to tell you how glad I am to see the service men of America join themselves in a national organization formed on so high a plane, and starting out upon its career with so much solidarity as the American Legion. I believe the American Legion is going to be tremendously useful, not only to the men who compose it, but to the whole nation as well, because of its example, and of the lesson of brotherly selflessness it will teach.

I take this occasion to wish a long life of usefulness and service to the American Legion Weekly. And many leaders in peace and in war are claim the American Legion.

General Peyton C. March, chief of staff of the United States Army, under date of June 26, writes:

The American Legion has made a distinct step forward in determining upon the publication of an official journal. The aims of this organization, as published, are of such a high character as to make certain its success and its real value to the country at large. The experience of this war cannot fail to have had a broadening effect upon every soldier who engaged in it, and the lessons of duty to country and of loyalty to the form of government represented by the United States have been thoroughly learned by the men of the American Legion. The American Legion aims to perpetuate the memories of a glorious page of our history and its non-partisan character assures its long life and prosperity.
